

ICRTouch Software Helping Businesses Stay Safe and Keep Trading, Whilst Complying With Government Guidelines.

PocketTouch

Table Service Software for Waiting Staff

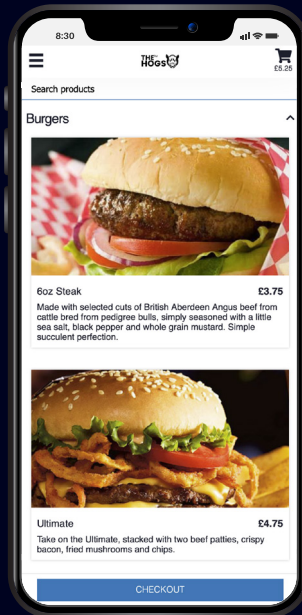

Wireless table ordering service. Safely attend to customers at the table using PocketTouch, this will help your business comply with the new Government guidelines. Our revolutionary hand-held software has been designed and developed specifically for the hospitality industry. Ensure customers receive the service they expect whilst maintaining social distancing.

ByTable

Order To Table Solution

Adapt your business focus in line with the new government guidelines, keep staff and customers safe and at the table with ByTable. Your customers can order meals, drinks and pay all from their own device. No need for close interaction with staff or other guests. Maximise your table revenue by reopening your outdoor space. No hidden fees, 0% commission.

TouchTakeaway

Fast Food Online Webshop

TouchTakeaway provides a safe way for customers to pre-order food online. Whether it's for a delivery service or for collection at your convenience. Your customers will have the opportunity to explore your full product range at their leisure, rather than being rushed into a decision while standing in the queue or waiting on the phone, in turn encourages them to spend more.

TouchReservation

Reservations Online

Maximise your table/seating covers and allow customers to make bookings around the clock. Offer diners the ultimate in choice and flexibility with TouchReservation. Manage your table covers to a maximum of 6 to comply with the new Government guidelines.
